Unlimited Design Flexibility

The versatility and design flexibility of wedi 2" Building Panel allows for a high degree of individuality when building structures. You are no longer bound by using pre-fabricated elements or heavy wooden framework, which prevent you from achieving your design. wedi Building Panels empower your creativity.

Using wedi Building Panel is also extremely time efficient, as it requires no extra work to get it to the ready to tile stage, because once built, it is ready to tile and use! Think outside the box and use our 2" Building Panel not only for seats or benches, but also as a room partition or free standing wall, knee walls when doubled up or as a simple divider. Whether round or straight lines, classic or eccentric forms, nearly every design idea can be achieved. In addition, all elements are safe and easy to use and can be tiled as desired, using any tile or stone and

any thinset you prefer. wedi offers unique and completely new alternate solutions for innovative interior designs that demand lasting waterproof and solid tile substrates, achieved with the highest quality products.

wedi 2" Building Panels empower your creativity

Totally customizable shelves, walls, countertops, and benches are easy to build and ready to tile in no time!
